

Take My Word For It! is a one-of-a-kind creative writing program taught in the after school setting. We encourage kids to find their writer's voice through an innovative curriculum that explores a million different ways to put words together.

What happens when kids are given the freedom to go wherever their imaginations want to travel? Wondrous sights, smells, sounds, textures and characters emerge accompanied by stunning metaphors, astounding alliterations and captivating dialogue.

Parents marvel at their kids' knack for writing powerful poems, unique stories, persuasive essays, and tantalizing travel pieces. We get rave reviews whenever our young writers share their work out loud. They get to do that in front of their family, friends and teachers at a special reading we put on at the end of every session.

"The in-class assignments allow the kids to tap into their already vivid imaginations, and pull out oh-so-clever ideas and stories in a fun, upbeat way...I always look forward to reading the latest piece."
-Elementary school parent

Sondra Hall is the founder and director of **Take My Word For It!** She is also a parent and has been in love with the written word since she was in elementary school. Her work includes poetry and essays and she is currently working on a memoir.
